PROJECT EXPERIENCE

Automation & Integration Projects

Role - Business Analyst

- Worked with clients including Sugar Foods, Wheelking AI, Sonepar India, Spinmaster, Putzmeister, Fossil, and others, delivering RPA, AI automation, and EDI (Boomi) initiatives. Handled requirements gathering, CR management, impact analysis, documentation, and POCs, improving process efficiency, data accuracy, and system integration.

North America - Cogeco, Nations Translation Group, Suncor

Role - Technical Support Team Lead

- Managed RPA support operations for North American clients, handling incidents and change requests while ensuring reliable and stable bot performance post-deployment.

India - Delmonte, Bhandari Automobiles, Symphony Ltd, IMGIC

Role - Technical Support Team Lead

- Led post-implementation support for RPA projects for Indian clients, ensuring stability, quick issue resolution, and continuous improvement

Goa Water Billing App

Role - Developer

- Played a key role in developing and maintaining the Goa Water Billing system using Android, Java, and MySQL, ensuring streamlined and efficient billing operations.

Website Development

Role - Front End Developer

- Developed and maintained responsive, performance-optimized static websites for Goan startups using HTML, CSS, Bootstrap, and PHP.
