

# Akshay Khobragade - Data Analyst

**Address:** Chandrapur, MH **Phone number:** +91-9028222344 **Email address:** akshay.khobragade102@gmail.com

## Profile

Data Analyst with nearly 5.5 years of IT experience and 4 years of hands-on expertise in Data Analytics, Business Intelligence & Reporting. Proficient in SQL, Power Bi, Python (Pandas), Advanced Excel, ETL & Data Modeling for transforming complex data into meaningful Business Insights. Experienced in analyzing large dataset, building interactive dashboards, KPI Reporting Solutions, automating data preparation & delivering scalable reporting solutions for business stakeholders. Strong expertise in data validation, data quality, business reporting and stakeholder collaboration with hands on experience working in Banking, Finance services, Manufacturing & Marketing Domains.

## EDUCATION

2013 – 2016 **Mechanical Engineering | Bachelor of Engineering (BE)**  
Suryodaya College of Engineering & Technology, Nagpur

## PROFESSIONAL EXPERIENCE

01/2023 – Present **Data Analyst**  
PWC India Pvt.Ltd.

01/2022 – 11/2022 **Reporting Analyst**  
Salasar Alloy & Steel Industries Pvt.Ltd.

01/2021 – 01/2022 **MIS Executive**  
Tata Consultancy Services Limited (TCS)

## PROJECTS

01/2023 – Present **Data Analyst**  
PWC India Pvt.Ltd.  
**Project - AMEX Credit cards Analysis**

- **Extracted, Transformed, and Validate** large-scale customer, transaction & financial data using **SQL queries, joins & Data Validation** techniques to support analytics and Business Reporting.
- **Performed data cleaning, preprocessing, exploratory data analysis (EDA), and Automation** using **Python (Pandas & NumPy)** to prepare high-quality datasets for reporting and analysis.
- **Developed interactive Power Bi dashboard and KPI reports** to monitor business performance, including **YTD, MTD, QTD Comparison, trend analysis, and financial metrics.**
- **Designed Star Schema data models** and optimized relationships in **Power Bi** to improve report performance, scalability, and analytical efficiency.
- **Defined business KPI, Scorecards and performance metrics** to support business intelligence, forecasting, and strategic decision-making.
- **Build ETL Workflows** to extract, transform, validate, and integration data from multiple sources to ensure High data quality and consistency for business reporting.
- **Collaborated with business stakeholders** to automate reporting process, deliver actionable insights, and improve decision-making-through dashboards and analytical reports.

01/2022 – 11/2022 **Reporting Analyst (QA)**  
Salasar Alloy & Steel Industries Pvt.Ltd.  
**Project – Steel Manufacturing Growth Analysis**

- **Collected, Consolidated & Analyzed** daily production and Quality inspection data using Advanced Excel to identify **defect trends, process variation, & Production Performance metrics.**
- **Developed & Maintained** daily, weekly & monthly **MIS Reports** to monitor Key operational KPI's including Production output, rejection rate, yield percentage & process compliances.
- **Developed Excel based dashboards, Pivot Table, Pivot charts,** & management reports to visualize quality trends & Support production review meetings.
- **Utilized Advanced Excel functions** including **Pivot Tables, VLOOKUP, INDEX-MATCH, IF, SUMIFS, COUNTIFS, Conditional Formatting & Charts** to automate reporting and improve data accuracy.

## PROJECTS

- **Integrated** data from **ERP, quality inspection, & logistics systems** by Consolidating, Validating, filtering and Standardizing data using Advanced Excel for accurate reporting & analysis.
- **Collaborated with cross functional** teams during client review & governance meetings to implement enhancement requests and refine dashboards **for performance monitoring and profitability analysis**.

01/2021 – 01/2022

### MIS Executive

Tata Consultancy Services Limited (TCS)

#### Project - Web Analytics Implementation

- Prepare Daily, Weekly & Monthly **MIS Reports** using **Microsoft Excel** to Support Business Operations & Performance monitoring.
- Developed & Maintained Excel-based Reports Using **Pivot Tables, VLOOKUP, XLOOKUP, IF, SUMIFS, COUNTIFS, Chats, Conditional Formatting, Sorting & Filtering**.
- **Developed interactive dashboards & reporting views** to support executive reporting & business performance analysis.
- Generated **Performance reports and Trend analysis** to support **Business monitoring** & assist management in data-driven decision making.
- **Implemented dashboard filters and interactive features** to improve report usability and enable efficient data exploration.

## TECHNICAL SKILLS

### - DATA WRANGLING & PREPARATION

Data Validation, ETL

Data Cleaning, EDA

Data Modeling

Data Layer Management

Data Transformation

Data Visualization

### - DATA ANALYSIS & VISUALIZATION

Google Analytics

Tableau/Power BI (DAX)

Snowflake

KPI Reporting, Dashboard Development

A/B Testing Frameworks

Advanced Excel, MIS Reports

Python, Matplotlib, Seaborn

### - MARKETING ANALYTICS

Campaign Performance Analysis

Cross-Device Attribution

Customer Journey Mapping

ROAS Optimization

Conversion Tracking

### - PROGRAMMING & TOOLS

Python, Pandas, NumPy

SQL, MySQL

Statistical Analysis, (SciPy)

Jira, Confluence (Agile project tracking and documentation)

ETL Process Development

Data Quality Management

API Integration
