MuleSoft Developer with 5+ years of experience delivering secure, scalable enterprise integration solutions across multiple business domains. Experienced across the full SDLC, including API design, governance, deployment, and production support within Agile environments. Passionate about building reliable, high-performance architectures and progressing toward solution design and architecture roles.

SKILLS

- **Integration & API Development:** Mule 4, Anypoint Studio, RAML 1.0, DataWeave 2.0, MUnit, API Security, API Lifecycle Management & Governance
- **Connectors:** HTTP, Database, File, FTP/SFTP, Anypoint MQ, Salesforce, SAP, Email, Object Store
- **DevOps & Collaboration Tools:** GitLab, Azure DevOps (CI/CD Pipelines), JIRA, Confluence, Maven
- **Utilities:** SQL Server, WinSCP, Postman
- **Interpersonal:** Cross-functional Collaboration, Analytical Problem Solving, Stakeholder Communication, Mentorship & Knowledge Sharing

PROFESSIONAL EXPERIENCE

nVent, Mumbai, India

Sept 2024 – Present

Consultant – Integration Platform

- Implemented end-to-end enterprise integration solutions, enabling seamless ERP system integration with upstream and downstream applications.
- Operated as a key individual contributor within a lean Agile team, translating business requirements into scalable integration architectures while engaging directly with stakeholders.
- Managed the complete API lifecycle including design, security implementation (OAuth 2.0), governance compliance, deployment, and post-production optimization.
- Led migration of 30+ Mule applications from Runtime 4.4.0 to 4.9.0, ensuring platform compliance and zero critical production downtime.
- Managed production support operations, enhancing monitoring visibility, resolving incidents proactively, and maintaining detailed technical documentation to ensure operational stability.

Capgemini, Navi Mumbai, India

Sept 2020 – Aug 2024

Associate Consultant

- Engineered API-led integration solutions across Food, Retail, and Mining domains, enabling secure and reliable enterprise data exchange.
- Designed and deployed RESTful APIs on CloudHub, accelerating integration delivery cycles by 30% while adhering to API governance standards.
- Improved application quality by implementing structured error-handling mechanisms, logging frameworks, and automated testing using MUnit, reducing post-release defects by 25%.
- Contributed across the full SDLC including requirement analysis, development, testing, deployment, and UAT coordination within Agile delivery models.

EDUCATION

Bachelor of Engineering (B.E.) in Electronics

2016 – 2020

University of Mumbai

CERTIFICATIONS

MuleSoft Certified Developer(L1), MuleSoft Integration Associate, Certified Cloud Practitioner, Agile Software Development
